Don't forget to check this box

- Once registered you will be taken to the home page. To begin a practice interview select “Conduct and Interview”

- “Created For Me” brings you to a page where there are pre-existing interviews ready for you to take

“Custom Interview” allows you to select the questions from the database, which is a great way to see the variety of questions.

The rest of the process should be intuitive, though if you have any difficulties, simply email the Professional Development Center at pdcc@tcu.edu
